New Delhi, India

Education

B.Tech in Computer Science (2017 - present)
IIIT-Delhi   CGPA: 8.45

Class 12th (2016-2017)
Modern School Barakhamba Road, New Delhi   93.2%

Class 10th (2014-2015)
Modern School Barakhamba Road, New Delhi   10 CGPA

Skills

Data Structures and Algorithms, Android App Development, Java, Firebase, MySQL, Git, Python, R, Bash

Experience

Android Development Intern, CashKaro.com – May, 2019 to July, 2019
Worked closely with software development and testing team members to design and develop robust android apps for affiliate marketing and met requirements for functionality, scalability and performance.

Projects

Android apps for affiliate marketing
• Android apps to list the top deals on products sold by e-commerce platforms like amazon.in, flipkart.com etc. The apps consist of category wise filtered deals and product filters to easily find relevant deals. These apps were made during the summer internship at CashKaro.com.

ShowBuzz (07/2018 - 08/2018)
• An app with over 400k+ movies and 75k+ TV Shows, ShowBuzz keeps you updated about your favourite movies and tv shows. It contains information like plot summaries, trailers, video clips, cast info, reviews etc about movies and TV shows and also a separate section for information about celebrities. It also allows the user to create a watchlist for movies and TV shows locally on their devices.

Twitter Archive Project (01/2019-04/2019)
• A website and database to keep an archive of tweets by politicians like Narendra Modi and Rahul Gandhi. The tool uses technologies like Tweepy, Selenium,

Firebase, JavaScript and TextBlob to analyse the tweet data collected. This project has been done in a team of 5 under the guidance of Dr Ralph Schroeder from Oxford Internet Institute and Dr Anupam Das from IIM Kozhikode.

Certificates/LORs

Android Development Summer Internship (05/2019 - 07/2019)
